

200W MAGNETIC LOW VOLTAGE DIMMABLE DRIVER

DR-200W-24VDC-DIM

Description

The 200W Magnetic Low Voltage Dimmable Driver is an excellent solution for residential applications. It is equipped with two push-to-reset breakers, one on the input and one on the output, which protect both the load and driver. The driver is encased in a coated metal box that includes 2 knock-outs, one on each side, to enable easy installation that complies with electrical code requirements.
